APPLICATIONS

Mop holder used in combination with mops with strap tape system for floor wet mopping and disinfection. The new "Lock System" joint allows to clean also walls and ceilings very easily.

FEATURES

- Product made of high-quality, light, rust-proof material, resistant to frequent use
- The plastic components are treated with antibacterial additive to prevent the proliferation of bacteria
- Characterized by low friction, it ensures the utmost adherence to the floor
- The trapezoidal shape means they easily get into every corner and all those other hard-to-reach areas for a thorough clean
- Plastic corner bumpers protect walls and furniture
- Lock System allows to block the side movements of the mop holder and it guarantees the maximum adherence to vertical surfaces for better cleaning results. This system can be switched on and off by simply pushing up or down its small lever (locking device) with one's foot, without the use of one's hands and without bending any more
- Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm
- Articulated joint for a 360° performance that allows you to easily clean hard-to-reach surfaces
- The 2,5 cm strap tapes guarantee a total adherence of the mop holder to the mop for better cleaning results. Easily replaceable.
