APPLICATIONS

It can be used for the large window cleaning, ceilings and vertical walls difficult to reach in height. It allows the operator to quickly and safely reach higher surfaces without ladders.

ECO BOX

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life
Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Made from recycled aluminium: light and sustainable
- The anti-twist system prevents the tubes from twisting together, making it easier to extend the pole and ensuring greater stability during use
- The fast opening and closing plastic ring makes adjusting the pole to the desired height fast and effortless
- The ergonomic, non-slip rubber grip facilitates a firm hold even with wet hands and prevents the pole from slipping when resting vertically
- Practical hole for draining water when washing surfaces
- Cone designed to attach securely to tools, keeping them in place during cleaning operations and preventing dangerous unhooking
- The Uni-Connect system allows you to quickly and easily attach the same handle to any cleaning equipment, quickly switching from one tool to another (frame, squeegee, duster...)
- The cone with American thread makes the poles universal and also compatible with conventional systems on the market
- Latex-free product

MATERIAL

Aluminium, polypropylene, thermoplastic rubber, nylon, polyamide and acetal resin
