Spare part of the window squeegee. 0° working angle used for the swivel method in combination with poles.

ECO BOX

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life
Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Long and made of two materials, rubber and polyamide, for an ergonomic, non-slip grip
- Thanks to the clamp, the fastening system of the channel ensures a firm hold of the blade
- With practical and fast blade replacement system, without releasing the steel holder
- With adjustable and lockable window squeegee head: by turning the central knob, you can decide to work with the tool freely articulated and/or lock it in a fixed position, facilitating cleaning in the most difficult places
- The middle position can be quickly fixed by pressing the lock button
- The connection with thread fastens the product firmly to the handle, avoiding dangerous releases
- The 0° working angle guarantees control, fluidity of movement and high performance in any context
- Compatible with Uni-Connect: system that allows you to quickly and easily connect the same handle to any cleaning tool, quickly switching from one tool to another (mop holder, window squeegee, duster...)
- Can be used with handles with thread, ø 21 mm poles with Uni-Connect cone and ø 23 mm telescopic handles with Uni-Connect cone
- Latex-free product

MATERIAL

Polyamide, thermoplastic rubber and POM
