Glass gets its
shine back with
Filmop

The **Shine** line embodies **Filmop's excellence for professional glass cleaning**, designed to make it both highly effective and efficient.

Washers, window squeegees, poles and more: the operator has **everything he needs for every cleaning task**.

Quality materials, innovative features and high user comfort are the strengths that characterise and make the entire line unique.

A completely connected cleaning system

Glass, surfaces, floors: **Uni-Connect** gets everywhere by connecting the entire range of professional cleaning equipment.

The operator can **quickly switch from one tool to another, easily cleaning any surface**, even the highest or hard-to-reach one.

Yarns for highly effective cleaning

The **window washers** excel in their **excellent collection capacity** and **high absorbency**, providing significantly better performance than traditional systems.

Manufactured using **solar energy** from the complex of photovoltaic systems installed on the company premises, they are available in **three versions with or without abrasive fibre** to meet every need.

The window washers **operate in synergy with their supports** designed to excel in terms of performance and efficiency.

Clarus-W Prime

Compatible with Uni-Connect system
and Italian thread

SELECTED MATERIALS

Made of **high quality polypropylene copolymer**, lightweight and resistant

DISTINCTIVE FEATURES

It stands out for its many grooves that fill with cleaning solution when dipped and then gradually release it, ensuring **long lasting soaking**

EASE OF USE

The length of the handgrip and ergonomic design have been specially developed to **promote comfortable use and reduce fatigue**

Made from material that is fully
recyclable at end-of-life

Clarus-W Prime

Clarus-W Master

**PATENT
PENDING**

SELECTED MATERIALS

Made of **high quality aluminium**, lightweight, stainless and resistant

DISTINCTIVE FEATURES

It stands out for its smooth, cavity-free washer head that adheres completely to the surface, making **dirt removal incredibly quick and easy**

EASE OF USE

The length of the handgrip and ergonomic design **promote comfortable use and reduce fatigue** while the bimaterial construction ensures a **non-slip hold**

Compatible with Uni-Connect system
and Italian thread

Made from separable materials
and therefore recyclable at end-of-life

Clarus-W Master

Jointed Clarus-W Master

The articulated version combines the advantages of the fixed version with the **rotation of the washer head up to 180°**, which can be **locked in an instant and at any point** using the practical knob.

The operator can decide whether to use the tool freely articulated, i.e. with an 'S' movement, or to **lock it at the desired angle** as required.

ANGLE LOCKING PROCEDURE

Turn the knob to the left to unlock the washer head

Position the washer head at the desired angle

Turn the knob to the right to lock the angle

180°

**PATENT
PENDING**

Made from separable materials and therefore recyclable at end-of-life

Compatible with Uni-Connect system and Italian thread

Jointed Clarus-W Master

Blades for professional drying

Completely smooth and free of imperfections, Filmop blades **perfectly clean the surface in a single wipe** ensuring considerable time savings.

The closed-cell natural rubber construction **prevents the build-up of dirt and bacteria**, thus raising hygiene standards, while the vulcanisation treatment **maximises resistance** and ensures a long service life.

Available in **blue** and **black** versions, they can be **replaced easily in the event of wear and tear**, extending the life of the squeegees in the range forever.

Highly effective
hard black rubber

Highly gliding
blue rubber

Gloss-W Superior

SELECTED MATERIALS

Made of **high-quality stainless steel**, resistant and long-lasting

DISTINCTIVE FEATURES

It allows even pressure over the entire length of the blade, resulting in **complete and residue-free drying**

Completely closed sideways to ensure **maximum safety in use** and prevent accidents

Designed to make it easier to insert the support and replace the blade when worn

Equipped with **convenient hole** for hanging the squeegee in use or at the end of cleaning operations

30°

Fixed operating angle to maximise performance and comfort

Partly made of recycled stainless steel

Compatible with Uni-Connect system

Gloss-W Superior

EASE OF USE

The ergonomic design **promotes comfortable handling** while the non-slip rubber coating ensures a **firm and secure grip in all conditions**

Blue silicone rubber
for high comfort

Black synthetic rubber
for maximum safety

Innovation in blade replacement

The **Gloss-W** range of **plastic squeegees** is characterised by a highly innovative system that allows **the blade to be turned or replaced extremely quickly and conveniently**, resulting in considerable time savings.

A light pressure on the retractable button is enough to **release the blade while keeping the support in place**. Harder pressure, on the other hand, allows it to be released when needed, requiring **30% less effort** than steel squeegees*.

REPLACEMENT PROCEDURE

Pull the retractable button to activate it

Press lightly to release the blade or more firmly to release the support

PATENT PENDING

Push the button in to deactivate it

* Tests carried out with Gloss-W plastic squeegees and a traditional steel squeegee

Gloss-W Prime

SELECTED MATERIALS

Made of **high-quality**, lightweight, impact-resistant **plastic** handgrip and **long-lasting stainless steel** support

DISTINCTIVE FEATURES

The clamp fastening system ensures **maximum hold of the support and blade** during glass drying operations by preventing accidental release

EASE OF USE

The length of the handgrip and ergonomic design have been specially developed to **promote comfortable use and reduce fatigue**

30°

**PATENT
PENDING**

Fixed operating angle
to maximise performance
and comfort

Made from separable materials
and therefore recyclable at end-of-life

Compatible with Uni-Connect system
and Italian thread

Gloss-W Prime

Jointed Gloss-W Prime

Top of the range in the Shine line, Gloss- W Prime in the articulated version stands out for its **adjustable** squeegee head position of **up to 150°** and its **ergonomic and non-slip bimaterial** rubber and polyamide **handle**.

Acting on the head **button** and the **central handle knob**, the operator can decide to work with the **tool freely articulated**, i.e. with an 'S' movement, or **lock it in the standard central position or in any other position** according to his needs.

HOW TO USE IT

SQUEEGEE IN STANDARD CENTRAL POSITION

Put the head in the central position

Lock it to the handle by pressing the button downwards

FREELY ARTICULATED SQUEEGEE

Push the head button upwards to deactivate the central position

Turn the handle knob to the left to unlock the head

SQUEEGEE WITH DESIRED ANGLE

Set the head at the desired angle

Turn the handle knob to the right to lock the angle

**PATENT
PENDING**

Made from separable materials and therefore recyclable at end-of-life

Compatible with Uni-Connect system and Italian thread

Jointed Gloss-W Prime

Fixed operating angle
to maximise performance
and comfort

Gloss-W Ambo

RAW MATERIALS

Lightweight and resistant thanks to **high-quality plastic, aluminium and stainless steel** construction

DISTINCTIVE FEATURES

Perfect symbiosis between the aluminium window washer support and the plastic squeegee that **allows one tool to be used for washing and drying**, speeding up operations

EASE OF USE

The length of the handgrip and ergonomic design have been specially developed to **promote comfortable use and reduce fatigue**

Fixed operating angle
to maximise performance
and comfort

**PATENT
PENDING**

Made from separable materials
and therefore recyclable at end-of-life

Compatible with Uni-Connect system
and Italian thread

Gloss-W Ambo

Spectra-W Pro

SELECTED MATERIALS

Made of **high quality aluminium**, lightweight, stainless and resistant

DISTINCTIVE FEATURES

The **anti-twist system** prevents the tubes from twisting together, making it easier to extend the pole and ensuring greater stability during use

The **quick-opening and closing plastic ring** makes adjusting the pole to the desired height faster and more convenient

The **non-slip rubber grip** prevents the pole from slipping when it is placed vertically

The **practical hole** allows water to drain off when washing surfaces and enables the pole to be hung up

PATENT PENDING

EASE OF USE

The handle length and ergonomic design **promote comfortable use and reduce fatigue**, while the non-slip rubber material ensures a **firm and secure grip**

COMPATIBILITY

Supplied complete with **American thread cone**, making them **universal** and compatible with both Uni-Connect and conventional systems on the market

Compatible with Uni-Connect system and Italian thread

Made of separable materials and therefore recyclable at end-of-life

Spectra-W Pro

Spectra-W Pro

Joint for telescopic pole

Applicable to $\varnothing 21$ mm poles and $\varnothing 23$ mm handles, it allows **operation at any angle**, thus facilitating cleaning in the most difficult places.

Ideal combined with tools with a fixed working angle of 30° , it is equipped with a **push-button system that allows the rotation to be adjusted and locked** according to specific needs.

DISTINCTIVE FEATURES

225°

Rotation from 0° to 225°
for maximum flexibility

Rotation lock every 15°
for optimum precision

Compatible with Uni-Connect system
and Italian thread

**PATENT
PENDING**

Made from separable materials
and therefore recyclable at end-of-life

Joint for telescopic pole

Cone with American thread

It can be applied to **poles** and **handles** and allows **tools with a cone-shaped end** to be attached so that even hard-to-reach places can be easily cleaned.

Compatible with
Uni-Connect system

Made from material that is fully recyclable
at end-of-life

Glass cleaning essentials

KIT FOR WINDOW CLEANING

Case containing the complete tool kit for professional window cleaning, equipped with elastic bands that keep the single products firmly in place and ready for use.

ADJUSTABLE BELT

The belt with pockets keeps **equipment within easy reach**, making it a useful ally when cleaning surfaces with manual cloths and washing floors with tools with tanks.

The adjustable fastening makes it universal and **can be quickly adapted to the operator**. It is supplied with **two practical pockets** and can be equipped with a **practical bag-holder ring** according to your needs.

Glass cleaning essentials

Glass cleaning essentials

BUCKET WITH WRINGER AND SQUEEGEE HOLDER

20 litre plastic bucket complete with ergonomic handle, graduated scale and bottom-saving edge for easy grip when emptying.

Equipped with a **wringer that can be used with 35 and 45 cm washer sleeves** and a **holder for the squeegee** that can be placed either inside or outside as required. It can also be equipped with **four swivelling wheels** for ease of transport.

PSV certified bucket

BETTER TOGETHER

Un intero sistema di pulizia completamente connesso

A completely connected cleaning system

Vetri, superfici, pavimenti: **Uni-Connect** arriva ovunque connettendo l'intera gamma di attrezzature per la pulizia professionale.

*Glass, surfaces, floors: **Uni-Connect** gets everywhere by connecting the entire range of professional cleaning equipment.*

Una connessione universale, istantanea e sicura.

Universal, instant and secure connection.

Caratteristiche - Features

Uni-Connect **connette istantaneamente e in totale sicurezza tutte le attrezzature** richieste per una pulizia completa degli ambienti.

Uni-Connect connects instantly and safely all equipment required for cleaning of environments.

CONNESSIONE UNIVERSALE UNIVERSAL CONNECTION

Con Uni-Connect pulisci vetri, superfici e pavimenti usando un unico sistema: l'apposito cono terminale consente di agganciare lo stesso manico a qualsiasi attrezzatura di pulizia.

With Uni-Connect you can easily clean glass, surfaces and floors using a single system: the special end cone allows you to attach the handle to any cleaning equipment.

76

FISSAGGIO ISTANTANEO INSTANT FASTENING

Uni-Connect è semplice e veloce: il fissaggio del cono terminale avviene all'istante, senza richiedere procedimenti complicati. Allo stesso modo, anche lo sgancio è facile e istantaneo.

Uni-Connect is quick and easy: attachment of the end cone takes place instantly, without the need for complicated procedures. Similarly, release is also easy and instantaneous.

Premi lateralmente e solleva l'attrezzo per sganciarlo
Press sideways and lift the tool to release it

Caratteristiche - Features

AGGANCIO SICURO SECURE FIXING

Uni-Connect rende la pulizia estremamente più sicura: il cono terminale è progettato per agganciarsi saldamente agli attrezzi mantenendoli fissati durante le operazioni di pulizia, evitando così pericolosi sganci.

Uni-Connect makes cleaning extremely safer: the end cone is designed to hook securely onto the tools, keeping them in place during cleaning operations and thus preventing dangerous disengagement.

La parte finale filettata rende il cono compatibile anche con gli attrezzi con filetto

The threaded end also makes the cone compatible with threaded tools

Con Uni-Connect l'attrezzo rimane agganciato anche se sottoposto a sollecitazioni
With Uni-Connect, the tool remains hooked even when subjected to stresses

Tergivetro e velli per la pulizia dei vetri, piumini e scovoli per le superfici e telai e frange per i pavimenti: **le possibilità offerte dalla gamma Uni-Connect sono molteplici** e soddisfano ogni esigenza.

L'operatore può **passare rapidamente da un attrezzo all'altro raggiungendo agevolmente ogni superficie**, anche quella più scomoda ed elevata.

Il manico non cambia con il cambiare degli attrezzi ma rimane sempre lo stesso, utilizzabile con tutte le attrezzature in gamma.

Windows squeegees and washers for glass cleaning, dusters and cobweb brushes for surface cleaning and mops holders and mops for floors: **the options offered by the Uni-Connect range are manifold** and meet every need.

The operator can **quickly switch from one tool to another, easily cleaning any surface**, even the highest or hard-to-reach one.

The handle does not change as the tools change but is always the same, and can be used with all the tools in the range.

Caratteristiche - Features

Non solo operazioni più efficienti, rapide e sicure:
Uni-Connect ottimizza anche l'attrezzatura sul carrello.

Not only more efficient, faster and safer operations: Uni-Connect also optimises the equipment on the trolley.

CARRELLO ORGANIZZATO ORGANISED TROLLEY

L'apposito attacco per lo sgancio dei telai permette di **organizzare in modo efficiente l'attrezzatura**. Disponibile come accessorio applicabile a pareti e montanti dei carrelli multiuso **Alpha** e fornito di serie nei carrelli strizzatori **OneFred**, consente di **attrezzarli in base alle esigenze creando soluzioni complete**.

*The special connection to remove the mop holders allows **efficient equipment organisation**. Available as an accessory that can be attached to the panels and frames of **Alpha** multi-purpose trolleys and supplied as standard on **OneFred** wringer trolleys, it allows **them to be equipped as required, creating complete solutions**.*

INGOMBRO MINIMO MINIMUM SIZE

Grazie all'attacco è possibile **attrezzare anche i carrelli più compatti con tutto il necessario** per una pulizia completa degli ambienti, **mantenendo minimo l'ingombro**.

*Thanks to the connection, it is possible to **equip even the most compact trolleys with all necessary equipment** for complete room cleaning, while **keeping space requirements to a minimum**.*

Caratteristiche - Features

SGANCIO IMMEDIATO IMMEDIATE RELEASE

Lo sgancio dei telai avviene in modo **istantaneo e senza inutili perdite di tempo**, permettendo all'operatore di passare velocemente all'attrezzo successivo e proseguire con le operazioni previste.

*The mop holders are released **quickly and without unnecessary loss of time**, allowing the operator to switch easily to the next tool and carry on with the planned operations.*

Inserisci il telaio e solleva il manico per sganciarlo
Plug in the mop holder and lift the handle to release it

Manico alluminio telescopico
Aluminium telescopic handle

Telaio con cono Uni-Connect
Mop holder with Uni-Connect cone

Uni-Connect permette di **agganciare lo stesso manico a qualsiasi telaio in gamma**, sganciando gli attrezzi comodamente sul carrello a operazioni ultimate.

L'innovativo sistema **rende così più efficiente l'intero processo**, dalla pulizia di vetri e superfici a quella di pareti e pavimenti, **ottimizzando al tempo stesso l'equipaggiamento del carrello** senza comprometterne la compattezza.

*Uni-Connect allows **the same handle to be attached to any mop holder available in the range**, releasing the tools conveniently on the trolley once operations are complete.*

*The innovative system **thus makes the entire process**, from cleaning glass and surfaces to cleaning walls and floors, **more efficient**, while **optimising the equipment of the trolley** without compromising its dimensions.*

Sistema di chiusura automatica *Automatic locking system*

Con Alpha, la sicurezza
è al primo posto

*With Alpha,
safety comes first*

MASSIMA SICUREZZA, MASSIMA SEMPLICITÀ - TOP-LEVEL SAFETY, ZERO COMPLICATIONS

Il **sistema di chiusura automatica** progettato da Filmop rappresenta un salto di qualità nella gestione delle attrezzature e dei prodotti chimici. Concepito per i carrelli **Alpha**, consente di **bloccare in automatico porte e anelli centrali semplicemente chiudendoli**, impedendo l'accesso a persone non autorizzate.

- **Un solo gesto è sufficiente:** chiudi la porta, abbassa il coperchio, e il sistema si attiva all'istante.
- **Solo il personale autorizzato può accedere** all'interno dei vani, grazie alla chiave universale fornita.

Il meccanismo, completamente integrato nella struttura del carrello, non richiede alcuna procedura complessa o interventi manuali aggiuntivi, assicurando **praticità e rapidità in ogni situazione**.

The **automatic locking system** developed by Filmop sets a new benchmark in managing equipment and chemical products. Designed for **Alpha** trolleys, the system allows **instant locking of doors and central frames simply by closing them**, preventing unauthorised access.

- **Just one move is enough:** close the door, lower the cover, and the system instantly locks.
- **Only authorised personnel can open it** with the universal key.

Fully integrated into the trolley's structure, the system requires no complicated procedures, ensuring **speed and ease of use at all times**.

Punti di forza - Highlights

Massima protezione senza sforzi - Maximum protection with zero effort

Bloccare il carrello è questione di un attimo: basta chiudere e il sistema entra in azione automaticamente, senza richiedere procedure complicate.

Locking the trolley takes just a second: simply close it and the system activates automatically, with no levers or complicated steps.

Accesso riservato al personale autorizzato - Access restricted to authorised personnel

Solo chi possiede la chiave universale può aprire i vani del carrello, garantendo un controllo rigoroso su detergenti, attrezzature e materiali sensibili.

Only those with the universal key can access the compartments, ensuring strict control over chemicals, equipment, and sensitive materials.

Efficienza operativa garantita - Guaranteed operational efficiency

Riduce i tempi morti: l'operatore può lavorare in sicurezza senza interrompere il flusso operativo per bloccare o sbloccare manualmente i vani.

Minimises downtime: operators can work securely without pausing their workflow to manually lock or unlock compartments.

Sicurezza a prova di distrazione - Distraction-proof safety

Il sistema si attiva in automatico: anche in caso di dimenticanze o fretta, il contenuto del carrello resta protetto.

The system activates automatically: even in a rush or if forgotten, the trolley's contents remain protected.

LA PULIZIA AL SERVIZIO DELLE STRUTTURE EDUCATIVE CLEANING AT THE SERVICE OF EDUCATIONAL FACILITIES

Assicurare ambienti puliti e salubri significa tutelare la salute di studenti, insegnanti e personale scolastico.

Asili, scuole e istituti di formazione richiedono prodotti e sistemi di pulizia all'altezza del compito, progettati per rispondere alle specifiche esigenze del settore educativo.

Filmop offre una **gamma completa di attrezzature professionali** che favoriscono il mantenimento di **elevati standard igienici**, prevenendo la diffusione di virus e batteri.

Ensuring a clean and healthy environment means protecting the health of students, teachers and school staff.

Kindergartens, schools and educational institutions require cleaning products and systems that are up to the task, designed to meet the specific needs of the educational sector.

*Filmop offers a **complete range of professional equipment** to help maintain **high standards of hygiene**, preventing the spread of viruses and bacteria.*

Sistemi su misura per ogni ambiente Customised systems for every environment

Le strutture educative sono caratterizzate dalla **compresenza di diversi ambienti, ciascuno con proprie caratteristiche ed esigenze**: aule, uffici, corridoi, mense e servizi igienici richiedono approcci mirati per garantire una pulizia che sia al tempo stesso efficace ed efficiente.

La consolidata esperienza nel settore ha permesso a Filmop di selezionare i prodotti e i sistemi più adatti per **rispondere adeguatamente alle reali necessità** di ogni ambiente.

*Educational facilities are characterised by the **coexistence of different environments, each with its own characteristics and needs**: classrooms, offices, corridors, cafeteria and toilets require targeted approaches to ensure cleaning that is both effective and efficient.*

*The experience gained in the sector has enabled Filmop to select the most suitable products and systems **to meet the real needs** of each environment.*

Alpha + Top-Down

Ergonomico e accessoriabile, il **carrello multiuso Alpha con sistema di pre-impregnazione Top-Down** permette di avere **tutto l'occorrente per una pulizia completa** a portata di mano.

Ergonomic and accessory-friendly, the **multipurpose Alpha trolley with Top-Down pre-soaking system** provides **everything you need for thorough cleaning** at your fingertips.

Secchio 8 lt con coperchio ermetico
Pensato per ospitare i panni per le superfici

8 lt bucket with hermetic cover
Designed to hold cloths for surfaces

Secchi 4 lt con coperchio trasparente
Consentono di riporre attrezzi e materiali

4 lt buckets with transparent cover
Allow storage of tools and materials

Cassetti con chiave
Impediscono accessi non autorizzati

Drawers with keys
Prevent unauthorised access

Secchi 20 lt con coperchio ermetico
Permettono la pre-impregnazione dei panni

20 lt buckets with hermetic cover
Allow pre-soaking of mops

Ruote in gomma ø 300 mm
Consentono di avanzare su qualunque pavimentazione

ø 300 mm rubber wheels
Allow you to move forward on any floor

PERSONALIZZABILE - CUSTOMISABLE

Soddisfa ogni esigenza di pulizia grazie alla modularità dei componenti combinabili con innumerevoli accessori.

It meets all cleaning needs thanks to modular components that can be combined with many accessories.

Realizzato in parte con componenti in plastica certificati Plastica Seconda Vita
Made partially using plastic components that are certified Plastic Second Life

Portasacco pieghevole rinforzato

Progettato per ridurre l'ingombro e assicurare un'elevata resistenza

Reinforced foldable bag holder

Designed to save space and ensure high resistance

Ruote in gomma ø 125 mm con freno

Evitano movimenti involontari del carrello

ø 125 mm rubber wheels with brake

Prevent unintentional trolley movements

Maniglia di spinta ergonomica

Agevola la conduzione e le manovre

Ergonomic push handle

Makes handling and manoeuvres easier

OneFred + Boost

Compatto e versatile, il **carrello OneFred con strizzatore Boost** assicura una **resa elevata nella pulizia e una significativa riduzione degli sforzi** durante la strizzatura dei panni.

Compact and versatile, OneFred trolley with Boost wringer ensures high cleaning performance and significantly reduced effort when wringing out mops.

Realizzato in parte con componenti in plastica certificati Plastica Seconda Vita
Made partially using plastic components that are certified Plastic Second Life

Impugnatura ergonomica
Facilita la conduzione del carrello
Ergonomic grip
It facilitates trolley handling

Telaio compatto
Progettato per essere leggero e resistente

Compact frame
Designed to be lightweight and durable

Manici con codice colore
Identificano la soluzione detergente e l'acqua di risciacquo

Colour-coded handles
Identify cleaning solution and rinse water

Kit reggiscopa
Trasporta in sicurezza l'attrezzatura

Mop holder kit
Safe transport of equipment

Cassetta portaoggetti
Offre un comodo spazio di stoccaggio

Storage box
Provides convenient storage space

Secchi intercambiabili
È possibile utilizzare sia due secchi da 15 lt sia due da 25

Interchangeable buckets
You can use either two 15 lt or two 25 lt buckets

Paracolpi integrati
Aumentano la resistenza agli urti

Built-in bumpers
Increase impact resistance

MINOR SFORZO - LESS EFFORT

Lo strizzatore a piastra Boost **strizza il 20% in più con metà dello sforzo** rispetto agli strizzatori tradizionali.*

*Boost flat wringer wrings 20% more with half the effort compared to traditional wringers.**

Manico con manopola
È sufficiente abbassarlo una sola volta per ottenere la strizzata ideale

Handle with grip
Simply lower it once to achieve the ideal wringing

Spessore piastra regolabile
Per ottenere un panno più o meno umido in base alle esigenze

Adjustable plate thickness
To obtain a more or less wet mop as required

Boccole regolabili
Per adattare la strizzatura alle frange a filato rasato o strutturato

Adjustable bushings
To adapt wringing to short-looped or long-looped flat mops

Invaso trapezoidale
Per consentire alla frangia di entrare completamente

Trapezoidal space
To allow the flat mop to enter completely

Gancio portamanico
Per il trasporto in sicurezza dell'attrezzo

Handle holder
For safe transport of the tool

VIDEO WITH ADJUSTMENT INSTRUCTIONS

* Risultati ottenuti dai test condotti con lo strizzatore Boost e uno strizzatore tradizionale con pressini
** Results from tests with the Boost wringer and a traditional down-press wringer*

Globo system + Uni-Connect

Globo offre una **maggiore superficie lavante** rispetto al metodo tradizionale con mop mentre **Uni-Connect** consente di **utilizzare lo stesso manico** con tutte le attrezzature in gamma.

Globo offers a **larger washing** surface than the traditional method with a mop, while **Uni-Connect** allows **the same handle to be used** with all equipment in the range.

Bocchettone e cono Uni-Connect
Per agganciare il manico
a qualsiasi attrezzo

Uni-Connect fitting and cone
To attach the handle to any tool

TOUCH-FREE - TOUCH-FREE

Messa in opera

Il telaio rimane parzialmente aperto
per agevolarla

Use

The mop holder remains partially
open to facilitate it

Apertura del telaio

Il pulsante a pedale la rende
semplice e rapida

Mop holder opening

The foot pedal makes
it quick and easy

Sgancio del panno

L'apposito pulsante consente
uno sgancio touch-free

Mop detaching

The buttons allow
touch-free detaching

PROCEDURA GUIDATA ONLINE
ONLINE WIZARD

Uniko + ErgoSwing

Uniko assicura una **maggiore ergonomia e igiene** rispetto ai sistemi di lavaggio tradizionali mentre **ErgoSwing** asseconda il movimento a "S" prevenendo l'affaticamento.

Uniko ensures greater ergonomics and hygiene compared to traditional mopping systems, while ErgoSwing follows the 'S'-shaped movement, greatly reducing strain.

Impugnatura superiore girevole
Per ridurre i movimenti del polso

Swivelling upper handle
To reduce wrist movements

Impugnatura inferiore girevole
Per mantenere una postura corretta

Swivelling lower handle
To maintain correct posture

Articolazione snodata
Per raggiungere le zone di difficile accesso

Jointed articulation
To get to hard-to-reach areas

Bocchettone ErgoSwing

Per facilitare la pulizia riducendo gli sforzi

ErgoSwing fitting
To facilitate cleaning while reducing effort

Gancio ferma frangia
Per rimuovere la frangia senza contatto

Mop fixing clip
To remove the mop without contact

Pulsante a pedale
Per l'apertura rapida del telaio

Foot pedal
For quick opening of the mop holder

ERGOSWING TUTELA LA SALUTE DELL'OPERATORE

Garantisce un **minor affaticamento** e una **maggiore produttività**, assicurando nel contempo elevate prestazioni.

ERGOSWING PROTECTS THE HEALTH OF THE OPERATOR

It provides **less fatigue** and **higher productivity** while ensuring high performance.

Telaio con impugnatura *Mop holder with grip*

Il **telaio pieghevole con impugnatura** è dotato di un **sistema touch-free** per agganciare e sganciare il panno in maniera immediata e senza alcun contatto con le mani.

The **foldable mop holder** with grip is equipped with a **touch-free system** to hook and unhook the mop immediately and without any hand contact.

Impugnatura manuale
Assicura una presa salda e confortevole

Hand grip
Provides a firm and comfortable hold

Pulsante sagomato
Consente di aprire il telaio per agganciare o sganciare il panno

Shaped button
Allows the holder to be opened to hook or unhook the mop

Telaio con Uni-Connect Mop holder with Uni-Connect

Il **telaio pieghevole con Uni-Connect** semplifica e velocizza la **pulizia delle superfici verticali**, consentendo di raggiungere in sicurezza anche quelle più elevate.

The **foldable mop holder with Uni-Connect** makes **cleaning of vertical surfaces** quick and easy, allowing even the highest surfaces to be reached safely.

Bocchettone e cono Uni-Connect
Consente di usare lo stesso manico con ogni attrezzo

Uni-Connect fitting and cone
Allows the same handle to be used with each too

Tecnologia Lock system

Agevola la pulizia di pareti e soffitti

Lock system technology

Facilitates cleaning of walls and ceilings

Pulsante a pressione

Permette di aprire il telaio per inserire il panno o per rimuoverlo

Push button

Allows the holder to be opened to insert the mop or to remove it

Microfibre per superfici e pavimenti

Le **microfibre Filmop** sono il risultato di oltre cinquant'anni di esperienza che ci permettono di offrire una gamma completa di prodotti tessili di **alta qualità e basso impatto ambientale**.

Molteplici linee di panni e frange hanno ottenuto la prestigiosa **certificazione Ecolabel UE**, il marchio dell'Unione Europea che premia i **migliori prodotti ecosostenibili**.

OTTIMA RACCOLTA EXCELLENT COLLECTION

I sottilissimi filamenti della microfibra **puliscono in profondità ogni tipo di superficie**, catturando lo sporco e rimuovendo virus e batteri.

*The very thin filaments of the microfiber **deeply clean all kinds of surfaces**, capturing dirt and removing viruses and bacteria.*

MASSIMA ASSORBENZA MAXIMUM ABSORBENCY

L'alta densità dei filamenti genera una rete capillare che garantisce un'elevata assorbenza che si traduce in una **lunga autonomia di lavaggio**.

*The high density of the filaments generates a capillary action that guarantees high absorbency, which means a **long washing autonomy**.*

RIDUZIONE DEI COSTI COST REDUCTION

L'efficace azione meccanica permette di **ridurre il consumo di detersivi e disinfettanti** e di conseguenza i relativi costi.

*The effective mechanical action **reduces the use of cleaning agents and disinfectants** and consequently costs.*

RISPETTO DELL'AMBIENTE RESPECT FOR THE ENVIRONMENT

L'alto potere assorbente consente un **notevole risparmio di acqua** mentre la caratteristica durevolezza permette di **ridurre sensibilmente l'uso di risorse**.

*The high absorbent power allows **significant water savings**, while the characteristic durability allows a **significant reduction in resource use**.*

CONFORMI AI CAM - CAM COMPLIANT

I Criteri Ambientali Minimi dedicati ai servizi di pulizia e sanificazione incentivano l'utilizzo di microfibra in quanto considerata una **soluzione altamente efficiente**: il comprovato potere assorbente permette infatti di **ridurre il consumo di acqua e sostanze chimiche del 95%**.

*The Minimum Environmental Criteria dedicated to cleaning and sanitizing services encourage the use of microfiber as it is considered a **highly efficient solution**: the proven absorbency allows to **reduce the consumption of water and chemicals by 95%**.*

Microfibres for surfaces and floors

Filmop microfibres are the result of more than fifty years of experience offering a complete range of **high quality, low environmental impact** textile products.

Several lines of microfiber head mops and flat mops have obtained the prestigious **EU Ecolabel certification**, the European Union mark that rewards the **best products with a low impact on the ecosystem**.

Aule e uffici - Classrooms and offices

Aule e uffici sono ambienti vissuti quotidianamente da alunni, docenti e personale amministrativo, in cui il rischio di diffusione di agenti patogeni è particolarmente elevato.

Classrooms and offices are environments experienced daily by pupils, teachers and administrative staff, where the risk of spreading pathogens is particularly high.

Le attrezzature selezionate da Filmop permettono di **pulire in profondità rimuovendo efficacemente sporco, virus e batteri.**

*The equipment selected by Filmop makes **deep cleaning possible, effectively removing dirt, viruses and bacteria.***
